A Rising Star to Lead Industrial Trend

ComVac ASIA 2017 came to a successful close on November 3, 2017 at Shanghai New International Expo Centre. Putting a spotlight on smart manufacturing, this year's shows gathered 225 industrial pioneers from home and abroad, serving as a global hub for all things related to intelligent innovations in the industry field. The show covered a display area of 17,250 sqm, taking up 1.5 halls; once again consolidating the industrial weather vane positions in terms of participants, display area and onsite services. The four-day events attracted a total of 98,742 trade visitors.

ComVac ASIA 2017, the benchmark event in the field of Asian compressor, has kept leading the industrial trend. This year's show boasted a larger exhibition scale by increasing to 1.5 halls and covered the whole industrial chain such as machine, components, accessory manufacturers, compressed air, vacuum technologies, processing, distributions, continuously improving the industrial structure and providing the most ideal purchasing channel for buyers.

An increasing number of leading enterprises took active participate in this year's show, such as Atlas Copco, Baosi, BAUER KOUPRESSOREN, IHI, IHI-SULLAIR, Denver, ANEST IWATA, Fusheng, Hanbell, Gramklin, Bolaite, Q-Tech, Liutech, Honest, Baldor, XIAMEN EAST, Zenix, Kangpusi, Quanzhou HUADE, Moair, LIDA, Naili, MOBO, DHH, Turbo-Tech, Xinlei, Beardseycopression, CRRC, AirHorse, High Air, Olymtech Air, HengDe, Xinda, DMG, HANSHIN, Changsheng, SUCCESS ENGINE, Baijian, APU, Greenair, PURAIR, Zhongli, Jieneng, Ting King, LUXON, Luo You, Pressure Gas, XINLAI, Shantian, Shanhai, Carter and Wealth. Nearly 50% of the displayed products were complete machines, building the show into the largest compressor exhibition in China.

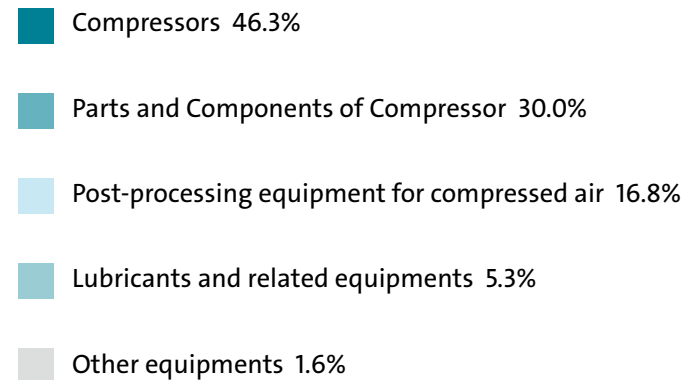

In addition, the most advanced equipment of compressed air and vacuum technology offered onsite visitors the most leading technologies and the latest technical innovations. This year, Baosi displayed oil-free scroll compressor and mobile screw air compressor products; KOBELCO brought micro-oil screw air compressor and new oil-free screw compressor; LIUTECH presented mature and reliable one-stop compressed gas solutions on the scene. Visitors experienced the splendid and innovative industrial results and learned the development trend of the compressor industry.

Visitors

Mr. Ma Cong, Electrical Engineer
Shanghai Morimatsu Pharmaceutical Equipment Engineering Co., Ltd.

It is the first time that we have visited the ComVac ASIA, but we're amazed to see the advanced intelligent manufacturing practices of leaders and vanguards in the industry from home and abroad. Really, we feel this event has really broadened our vision. I'm deeply impressed with the large exhibition area, the large number of exhibitors and the advanced technologies of this event. Technology is the first productivity, and we should evolve from manufacturing to intelligent manufacturing. The exhibition has also facilitated my visit with sound facilities and convenient signs. We wish it even better in the future!

Mr. Xia Weijun, Manager
Zhejiang Winnitex Textile Printing and Dyeing Co., Ltd.

I'm very glad to visit ComVac ASIA 2017. The exhibition has aggregated a crowd of excellent compressor manufacturers. Therefore, we have got the chance to talk with their officers and engineers on the site and kept ourselves informed of advanced technologies and cutting-edge innovative results of the compressor industry. Thanks to the exhibition, we have further understood compressors used in the textile industry. Wish the exhibition a greater success!

Exhibitors

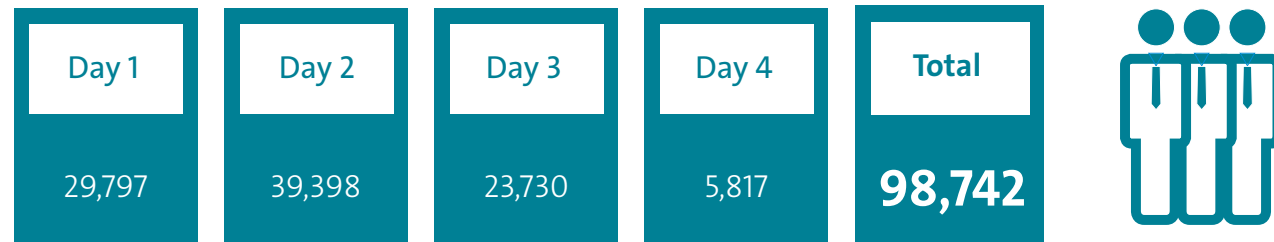

Mr. Chen Minglang, Vice General Manager of Market and Development Section
Fusheng Industry (Shanghai) Co., Ltd.

We are very fortunate that as an industry leader, Fusheng can exhibit our products with superb energy efficiency and the concept of a perfect fusion between "Energy Efficiency Navigation" and "Clean Compression", and wrestle with our counterparts on the stage provided by ComVac ASIA 2017. Our most intuitive impression about this year's exhibition is that it has obviously become much larger and many indigenous enterprises have brought their latest technologies. The exhibition has navigated the technical trend of the entire industry through the "professionalism and expertise" theme, which will carry an unusual weight for the industry under transformation. This year's exhibition has also attracted many overseas trade visitors, which will definitely help ComVac ASIA to further grow into the largest and most professional grand event of the compressor industry throughout Asia.

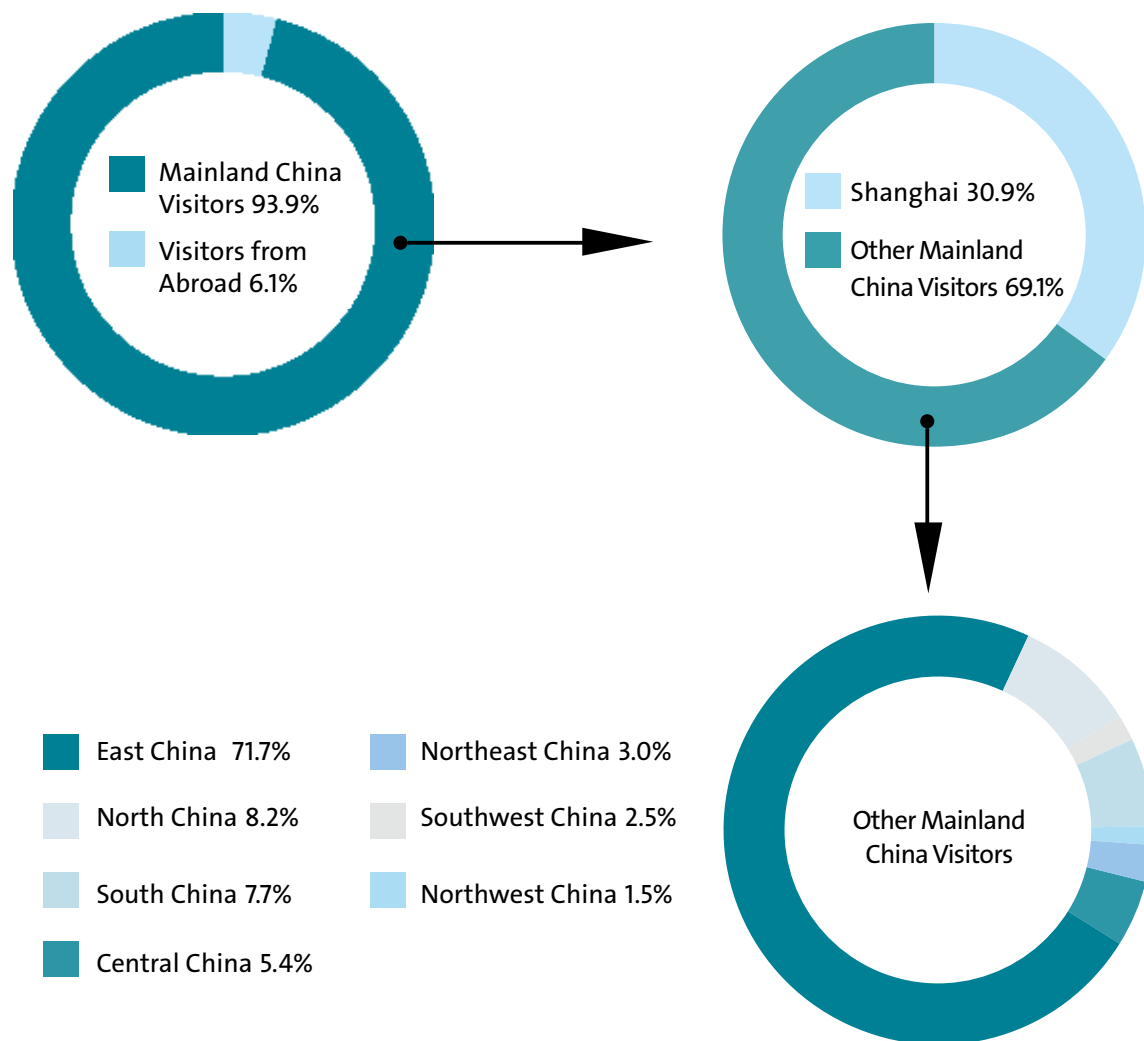

Mr. Wu Yongliang, Entire Machine Marketing Director of Compressor Group
Ningbo Baosi Energy Equipment Co., Ltd.

ComVac ASIA is a very professional exhibition and also a very good display and marketing platform. We acknowledge this grand stage for giving us the opportunity to flex our muscle and display our products, technologies and brand concepts to our clients. With the exhibition as an international stage, we will learn from excellent counterparts from home and abroad, display our industrial charm and promote "Made in China". We hope ComVac ASIA will become better and better, maintain its position as a professional exhibition in the compressor industry and navigate the industry to embrace next new climax.

This year, the organizer has first opened an official homepage for the exhibition on Facebook to strengthen international promotion for the exhibition and attract more overseas trade visitors. With message push and dynamic update, the Facebook homepage has attracted many fans and vigorously enhanced the awareness of the exhibition in the overseas market.

In future, the sponsor will continue to update the platform and leverage Facebook's popularity among overseas visitors to build the homepage into a portal for the sponsor, exhibitors and partners to all win.

We have recorded **38,035** visitors who have thumbed up for the homepage and **38,064** fans.

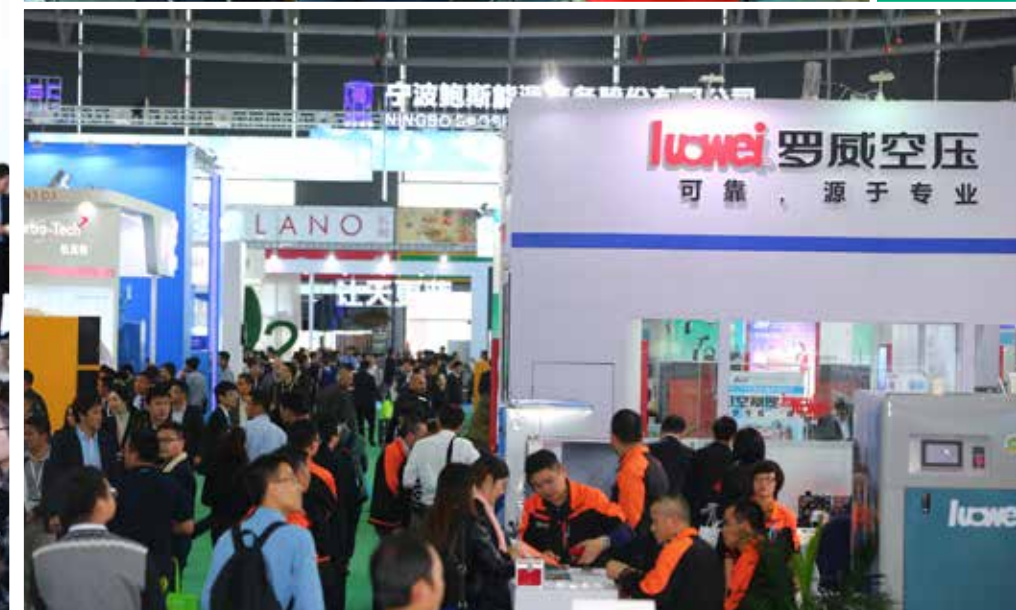

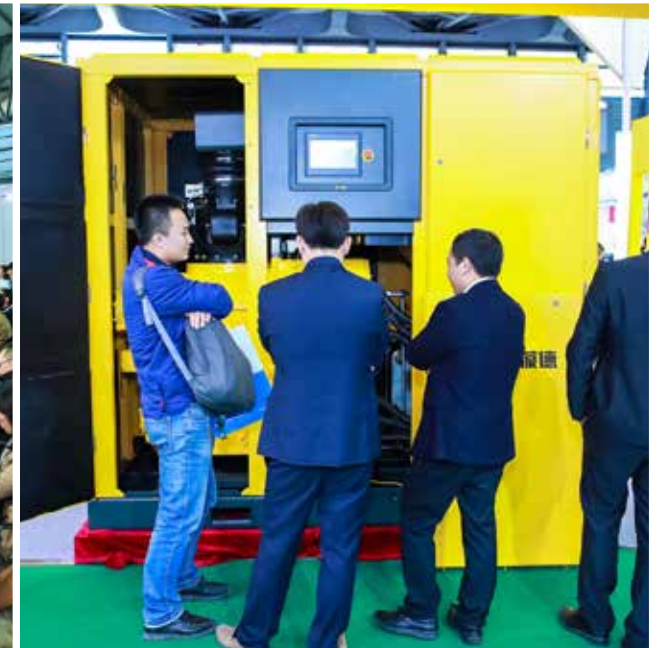

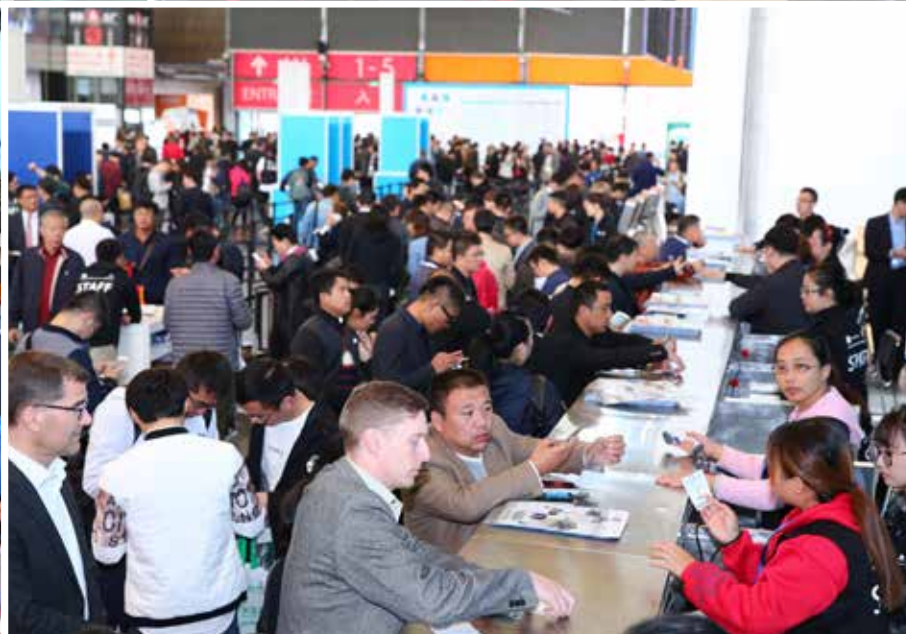

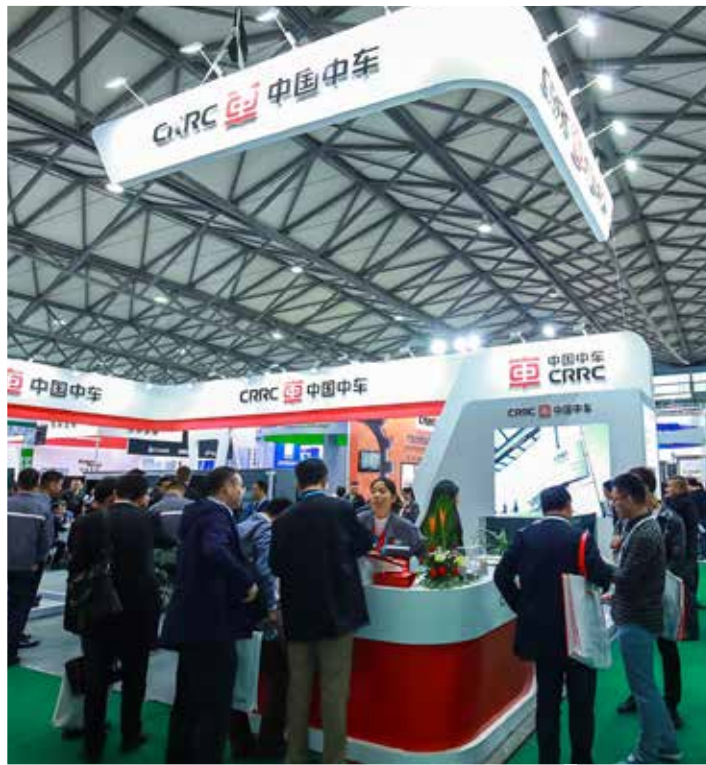

A total of **19,432** users have clicked the pre-registration link, and the homepage has accessed a total of **740,021** users and presented **2,011,711** clicks.

The homepage has recorded a total of **822,835** users who have clicked the advertisement link and cumulatively presented the advertisement for **2,531,717** times.
