ComVac

ASIA

Global summit for the entire industry

A Rising Star to Lead Industry Innovation

Under the prevention and controlling pressures of COVID-19 pandemic, the success of ComVac ASIA 2020 was an remarkable achievement, and the success was inevitably linked to the support and trust of the exhibitors. More than 50% of the exhibitors were compressor manufacturers. The three main focuses of the show was "intelligent manufacturing", "energy saving and high efficiency" and "technology and environmental protection". The show continued to explore the compressor's high-efficiency and energy-saving solutions from multiple aspects and dimensions, such as the optimization of the entire machine, the evaluation of the air system, and the energy saving of the system. In addition, the show also actively explored and discussed how to scientifically reduce production energy consumption pollution and improve production processes, so as to promote the compressor industry to contribute in energy conservation and environmental protection!

Intelligent Manufacturing: With the progress of national Industry 4.0 strategy and the integration of "Industrialization and Informatization" development, intellectualization and personalization will be an inevitable trend for the R&D and manufacturing of compressors. Highlighting the intellectualization positioning and accelerating the technological innovation development, enterprises will gather together to exchange thoughts on specific intelligent manufacturing solutions in line with their industrial characteristics, corporate strategic goals and their respective development.

Energy-saving and efficiency: Nowadays, compressor manufacturers are giving extra attention to highly efficient and energy saving products as well as eliminating backward production capacity. It is more important to use energy effects by making the best of modern control technology. ComVac ASIA 2021 will continuously discuss highly efficient energy-saving solutions for compressors from multiple aspects and dimensions, covering the optimization of the complete machine, air system assessment and system energy-saving, and pushing the compressors to stride towards the era of "Smart Manufacturing".

Scientific and environmental protection: Following the trend of "low-carbon and environmental protection", Chinese industries such as mining, metallurgy, machinery manufacturing, pharmaceuticals, F&B, textile, petrochemical and others witness a fast growth. They expedite their efforts to eliminate backward production capacity and high energy consumption equipment and update to high added-value compressors, so as to further create development opportunities for helical-lobe compressors. At ComVac ASIA, participants can actively explore and discuss such topics as how to scientifically reduce production energy consumption and pollution and how to improve the production process.

Big names in past shows

Baosi, Atlas Copco, Fusheng, Hitachi, Kobelco, IHISullar, Stronix, ANESTWATA, Hanbell, Kaishan, Bolaite, Screw, Garsner, DenverMOBO, Baldor-Tech, Torin, ShijiazhuangKangpu, United, Mattel, Q-Tech, Bauer, BOGE, MANN+HUMMEL, Ecoair, NAILI, Sullair, Moair, Pneumatech, Lida, ZHIGAO, onest, EAST ASIA, Huade, Success, DESRAN, Denair, August, Maxtech, Total, HengDe, Kelin Aier, WanBeardsley, Liutech, VWC, AE, Sanfam, Xinlei, YUKA, AECC, Zhongda, Henggong, Granklin, DMG, Hiturbine, eve, CRRV Voith, Maxtech, GAOLING, SEIZE, High, DHH, Turbo-Tech, Yilang, Leadway, Hande, OFAC, Hanks, Chanun Screw, GAIRS, LiYang, WALLBOGE, Airtech...

BAUER KOMPRESSOREN Shanghai Ltd

It was beyond our expectation that ComVAC ASIA this year maintained its visitor quality and quantity under the influence of COVID-19 pandemic, we believe the great result was come from the efforts of the organizer's thoughtfulness and professionalism.

During the 4-day communication with the industry peers, we found, innovation, honesty and steady growth become the common focus of the industry. We believe it's a very good transformation, and it will bring a healthy and dynamic growth to the industry. We cherish the sound progress of the economy recovery and we are willing to create a win-win situation with our clients in the future.

Ningbo Baosi Energy Equipment Co., Ltd.

The success of ComVAC ASIA this year was a solid prove of the fast recovery of Chinese economy post the COVID-19 pandemic. Under the themes of "Intelligent Manufacturing", "Energy Saving and High Efficiency", "Environment Friendly Technology", this year BaoSi showcased our high quality two stage medium pressure screw compressor, BSG oil-free screw blower, OSV screw vacuum pump and BGC energy saving oil-free screw compressor for the first time at ComVAC ASIA. The "star products" received high appraisals from the industry peer. Although ComVAC ASIA 2020 was successfully concluded, BaoSi will continue our efforts on intelligent manufacturing and product innovation. We look forward to exhibiting at ComVAC ASIA 2021 with our new products, new technologies and new solutions.

SHANGHAI SCREW COMPRESSOR CO.,LTD

Under the new normal of pandemic prevention, the success of ComVAC ASIA proved the fast recovery of the compressor and vacuum industry. The show provided a communication platform for the suppliers and end users, and it also promoted the sound development of the industry. In 2020, Shanghai Screw Compressor Co., Ltd. forged ahead with technology innovation and key technology R&D, and had successfully developed three new products: Maglev centrifuge compressor, Air foil bearing blower, PM inverter screw vacuum pump with new energy saving solution, the newly developed products and solutions were brought to showcase on ComVAC ASIA were well acclaimed by the clients, we were satisfied that we enhanced our brand through the exhibition. We would like to thank the organizer for the high quality services and we enjoyed our participating experience. We look forward to further cooperation with the show and the organizer.

**Hitachi (China) Ltd.
Assistant Manager
Value Chain Integration Group
Mr.Zhang**

We were glad to be invited to ComVAC ASIA and be part of the "Enjoy the Meeting" program. The visiting experience was comfortable and efficient. Recently our group has plan to expand our Chinese suppliers, we sought the motor and ventilation suppliers in ComVAC ASIA. The meeting arrangement provided by the organizer helped us to find suitable and qualified suppliers efficiently, and we received warm reception. The meeting with Ningbo Lionball was very fruitful, it was a memorable experience. We are looking forward to the next show and wish the show all the best!

Compressed Air

- Air compressor
- Processing compressor
- Special compressor
- Parts and components of compressor
- Postprocessing equipments
- Lubricants and related equipments

Vacuum Technology

- Vacuum pumps
- Vacuum valves and accessories
- Vacuum measurement and calibration instruments, gauges and vacuum leak detector device
- Vacuum application equipment
- Vacuum materials, vacuum pump oil and vacuum engineering equipment

**Compressor branch of Jiangsu Machinery Industry Association
Secretary General
Mr.Qin**

Our association organized visitor delegation to ComVAC ASIA again this year, through the visit, we met colleagues of the industry, expanded our knowledge and obtained industry trends and development directions. ComVAC ASIA is an indispensable platform for compressor and vacuum industry, it brought new concept and innovations to the industry suppliers and end users.

We appreciate the thoughtful service and close follow up we received, and on behalf of Jiangsu Compressor Industry Association, I would like to thank the organizer for their efforts, and we are looking forward to working further with the organizer in the future.

Setting the stage for tomorrow's trends

The largest exhibition scale in history:

As the iconic trade fair for compressed air and vacuum technology industry, this year ComVAC ASIA attracted nearly 250 exhibitors including ATLAS, KAISHAN, BAOSI, STRONIX, ANEST IWATA, BALDOR-TECH, SCREW, HANBELL, PREC, ISE, MOBO, BAUER, KOMPRESSOREN, ECOAIR, ZHIGAO, TURBO-TECH, HONEST, LIDA, GAIRS, EAST ASIA MACHINERY, SHIJIAZHUANG KANGPUSI, HITURBINE, GRANKLIN(GROUP), DHH, UNITED, XINLEI, HIGH AIR, HUADE, HENGDE, DENAIR, AREODYNAMIC, SEIZE, HANDE, DMG, TURBOCOMPRES, ZHILUN, OFAC, ZHONGLI, HENGDE, RISAN, DREAM, EMAGING, HAOXIANG, CHANUN and other famous compressor enterprises.

The concurrent forums and activities of the show were highly acclaimed by the participants. "Quality Management of Pharmaceutical Clean Workshop and Sterilization Control of Environmental Space Forum" organized by Ouryao Pharmaceutical Technology and the show organizer sparked at the show. The leading suppliers such as, ATLAS, BAOSI, Screw Compressor also delivered speeches on the forum, shared their experiences and successful case studies with the audiences, enriched the content of the trade fair.

The concurrently held compressor manufacturing forums were also the illuminated part of the show, representatives from over a dozen companies delivered speeches about their new products and new technologies. Among the forums, "Quality Management of Pharmaceutical Clean Workshop and Sterilization Control of Environmental Space Forum" organized by Ouryao Pharmaceutical Technology, got special attentions, it brought the audiences of pharmaceutical industry eye-opening lectures.

Other 57 summits, forums, technical seminars and innovation creation competitions were held concurrently with the show, the participants discussed and explored the upgrading and transformation of the industry post the COVID-19 pandemic. The events include, 2020 Smart Drive Workshop - Smart Manufacturing Forum Powered by VDMA, Digital and Intelligent Marketing Trends of Manufacturing Enterprises Forum, Future Technology and Intelligent Manufacturing Application Seminar, Digital Hydraulic Technology and Testing Intelligent Application Summit Forum, Continuous Conveying Professional Seminar, Pipeline Transportation Technology and Intelligent Manufacturing Application Seminar, CeMAT ASIA Innovation Salon, China Mobile Robotics and Integrator Conference.

ComVac ASIA 2020 Pricing (CNY/per sqm)

Standard Pricing			Optional Choice	
Raw Space in Zone	A	2,260	Shell Scheme	250
	B	1,540	Upgrade Shell Scheme	390
	C	1,231		

- Excluding 6% VAT.
- Total shell scheme stand fee = (raw space fee + additional fee of optional choice) x size
- Minimum size for raw space is 18 sqm; Minimum size for shell scheme is 9 sqm.
